Cadacus Handheld Solution for SYSPRO harnesses the power of Windows Mobile and SYSPRO e.Net Solutions to maximize efficiencies throughout your warehouse.

Key Benefits
- Optimize productivity by eliminating redundant processes
- Achieve up to 100% inventory accuracy
- Boost order accuracy, fill rates and on-time shipments
- Eliminate excess inventory
- Direct UPS/FedEx/DHL labeling and manifesting
- Designed for easy customization

Cadacus Handheld Solution for SYSPRO utilizes local processor and resources to minimize RF traffic. Weak signals are no longer a concern, as the handheld units will continue to operate in areas where the RF signal cannot reach.

Cadacus Handheld Solution for SYSPRO configurations are achieved within SYSPRO. No additional servers or software to install.

Cadacus Handheld Solution for SYSPRO works with the **EDI Solution for SYSPRO** to fully support Electronic Data Interchange (EDI) requirements.

- Fully-integrated
- Version independent
- Robust functionality
- Fast ROI
- Easy administration
- Easy deployment

Why *Cadacus* Handheld Solution for SYSPRO?

As developer of the SYSPRO EDI Solution, Shipping Solution and Freight Calculator Solution our products are fully integrated and driving efficiencies for hundreds of SYSPRO users *worldwide.*
